Education

University of Warwick Coventry, UK

Undergraduate Masters of Engineering, Computer Systems Engineering *Sept. 2025 – June 2029*

- Recipient of the "Exceptional Achievement in the First Year for Computer Systems Engineering" Academic Prize
- Relevant Modules Include:
  - 'Computer Organisation and Architecture', and 'Advanced Computer Architecture'
  - 'Electronic and Electrical Circuits'
  - 'Analogue Electronic Design', 'Digital Systems Design' and 'Signal Processing'
  - 'Semiconductor Materials and Devices'
  - 'Operating Systems and Networks'
  - 'Design of Information Structures'

Lord Williams's School Thame, Oxon, UK

A-levels and GCSEs *Sept. 2018 – July 2025*

- 4 A* at A-Level - Maths, Further Maths, Physics and Computer Science
- 10 GCSEs:
  - 9 – Maths, Computer Science, Combined Science Trilogy, Design and Technology
  - 8 – Further Maths Level 2, English Language, History, French
  - 7 – English Literature

Work Experience

Casual Technician June 2026 – Present

Warwick Arts Centre *Coventry, UK*

- Offered the role as a result of participation in University of Warwick's Tech Crew
- Shadowing of full-time technicians in lighting and stage, then working independently in lighting
- Strong technical knowledge and effective communication

Restaurant Manager - Hospitality Lounge, Coventry City Football Club June 2026 – Present

Legends Global *Coventry, UK*

- Asked to manage a new hospitality lounge for Coventry City FC Season-ticket holders after the 2026 season at Garsington Opera
- Responsible for smooth running of restaurant service with Lead Manager
- Involves managing and supporting waiting staff and communicating with guests and hospitality leads

Team Leader / Fine Dining Waiter May 2025 – Present

Constellation Platinum *London and South East, UK*

- 2025 and 2026 seasons at Garsington Opera
- Role of team-leader, directly interacting with guests and personally responsible for their service
- Managed an assistant waiter, serving a number of tables
- Frequently trusted to instruct new team members on how to lay up for service and how the restaurant was organised
- Asked to host high-profile guests in a private dining venue, working with a waiter to deliver precise, efficient service independently

Events Staff May 2023 – Present

Absolute Taste *Oxfordshire, UK*

- 2023 and 2024 seasons at Garsington Opera and Salon Prive as part of the restaurant waitering team
- Involved in a range of general tasks, including setting tables, running food, clearing up, and re-laying tables

Projects and Experience

3D Snake | *C* Nov. 2025

- A project running on an STM32 microcontroller and custom hardware of a pair of joysticks and an 8x8x8 LED array
- Used multiple protocols (incl. UART, GPIO and RCC) to communicate between the microcontroller and peripheral devices
- Experience in debugging remote code using *gdb*

Movie Database | *Java* Feb. 2026

- Utilises multiple data structures and algorithms to efficiently store and search film data
- Features custom implementations of hash maps, hash sets and array lists, as well as quick-sort and binary search trees

Java Game Engine | *Java* 2022 – 2024

- A systems design project, focused on systems architecture
- Explored professional APIs and libraries, including OpenGL, Dear ImGui and GLFW
- Investigated new concepts, such as GPU architecture and rendering pipelines
- Required solving complex problems and attention to detail

2D Rigidbody Simulation | *Python* Sept. 2024 – March 2025

- Completed as part of Computer Science A-level
- 2D simulation of rigid-body physics in Python
- Intended to help students explore physical systems in an intuitive way
- Opportunity to design and develop a complex software system, with a physics teacher as a client
- Considered system requirements and design for functionality

Electronics and Computer Science Residential | *University of Southampton* July 2024

- Electronics and Computer Science taster course, duration of one week
- Introduction to FPGAs, Brain-inspired technology, Distributed Computing, Biometrics and Assistive Technology
- Built hardware devices using simple circuit components and ICs

Other Experience and Qualifications

University of Warwick Tech Crew

- Exec Member - Co-Equipment Manager
- Lighting Designer for 'Orpheus in the Underworld', 'A View from the Bridge', 'The Ocean at The End of The Lane' and 'Translations'
- Led to a position as a casual technician at the Warwick Arts Centre

Gold Duke of Edinburgh's Award

- Demonstrated problem solving skills after unexpected issues arose
- Showed leadership when navigating
- Interpersonal skills when coordinating between team members
- Communicating ideas effectively in the team when discussing plans

Mountain Bike Coaching

- Achieved British Cycling Activity Coach Award
- Communication skills when coordinating between coaches and with members
- Planning and organising sessions

University of Warwick Computer Science Society

- Participated in the C course to learn the language

Playing Cornet

- Grade 5 Cornet
- Determination to achieve the award
- Time management to balance practice with studies
- Playing with bands, including Chinnor Silver Band, LWS Jazz Band, University of Warwick Big Band and University of Warwick Brass Society
- Participated in Band Day with Musical Theatre Warwick

Hobbies

Sports

- Mountain Biking, Climbing, Skiing, Running

Other

- Photography
